

DEVOPS

Step 1: Clone the project from this URL => <http://bit.ly/devops-project-01>

Step 2: Create a '**PUBLIC**' project named '**STUDY-PREP**' in your personal Azure DevOps Account.

NOTE: Make sure it is a public project.

Step 3: Create a '**TASK**' in the newly created project with the below description and assign the task to **YOURSELF**.

* **TITLE: Initial Push**

* **DESCRIPTION: I made the first push to Azure DevOps.**

Step 4: Push the cloned project from **Step 1** into your **Step 2** created project.

NOTE: Before you push to a new project, make sure it is pointing to your project remote url.

Step 5: Create a branch named '**exams-prep**'.

HOW TO SUBMIT

Step 1: Visit this URL => <http://bit.ly/devops-exam-01>

Step 2: Fill the Google form with correct information and submit.

To get your project URL see attached image.
